Annual Activity Report - 2015

Address: 9, Ashok Road, New Delhi, 110001, Tel. No. 011-48005850, E-Mail: office@spmrf.org , www.spmrf.org

Dr. Syama Prasad Mookerjee Research Foundation (SPMRF) has emerged as a forum that facilitates the convergence of ideas, positions and visions, while aspiring to strengthen the nation, preserve her unity and integrity, and contribute towards her progress and integral development.

Committed to the nationalist ideological vision and thoughts of Dr. Syama Prasad Mookerjee and Pandit Deendayal Upadhyay, SPMRF strives to strengthen and to uphold issues and positions in tune with **India's** national interest. It aims to identify the multifarious challenges before the nation and its people and attempts to bring about a greater awareness of these among a wider cross-section. It aims to do this through analysing, examining and studying, not only the present context of the challenges, but also their historical and civilisational backdrop.

The Foundation strives to create an intellectual ambience where nationalist thought can find free expression. Through research, publications, advocacy, debates, discussions and round-tables, it aims to highlight issues that are crucial in the national interest. A wide number of experts have, over a period, lent their support, expertise and insight to such an effort. National resurgence, cultural rejuvenation, national integration and national self-reliance are ideals for which SPMRF strives to work.

SPMRF provides a platform for experts, practitioners, academics and other opinion makers to come together and exchange ideas, evolve positions on a wide range of issues facing the nation, with the objective of educating a wider public opinion. In this effort, throughout 2015, as it has done in previous years, SPMRF has organized a series of programmes and roundtable discussions, outreach to experts, intellectuals, opinion makers, civil society leaders and organisations and the academia. It has come out with position papers,

policy recommendation notes and occasional papers in areas as wide as education, political analysis, environment-climate change and river cleaning, urban challenges, good governance, foreign affairs and governance projects as well produced books on our founding leaders and on the changing paradigm of governance since May 2014.

The year 2015 also saw SPMRF successfully launch and steer its e-journal ***The Nationalist*** – a vehicle for policy discussion and ideological and political education. An array of experts have come forward and contributed, on a regular basis, special articles for the journal. These articles, among other things, also seek to educate and disseminate the achievements of the Narendra Modi led Government and discuss and analyse the various people-centered initiatives that it has undertaken.

In 2016, SPMRF seeks to redouble its activities as its reiteration for the need of a new and refreshing narrative of India. It is to realise the vision of national cohesion, national unity and oneness that SPMRF invites and supports any positive effort that aims at leading India to greater pinnacles of glory and strength in order to achieve the vision of a united India and a great.

“The gigantic task of reconstruction, cultural, social, economic and political can be rendered possible through coordinated efforts of bands of trained and disciplined Indians. Armed with the knowledge of India's past glory and greatness, her strength and weakness, it is they who can place before their country a programme of work, which while loyal to the fundamental traditions of Indian civilisation will be adapted to the changing conditions of the modern world.”
