Director's Desk

At the end of our annual journey, I would like to broadly outline the vision of our institution, which is to create a framework to spur knowledge, ideas, creative thinking and integral humanism as an ideology with public policy to influence policy decisions for development of the nation.

“Whatever work you undertake, do it seriously, thoroughly and well; never leave it half-done or undone, never feel yourself satisfied unless and until you have given it your very best. Cultivate the habits of discipline and toleration. Surrender not the convictions you hold dear but learn to appreciate the points of view of your opponents.” Quote from a speech delivered by Dr. Syama Prasad Mookerjee at Scottish Church College, Kolkata on 7th December 1935.

Dr. Syama Prasad Mookerjee's words mentioned above echo in our institution, for attaining a focus at recycling research that aims to solve policy problems and not solely to advance the theoretical debate. The foundation over the years has emerged as a platform for facilitating the convergence of ideas, positions and visions, while aspiring to strengthen the nation, preserve unity and integrity, and contribute towards the progress for attaining integral development with its nationalist ideological vision and thoughts of Dr. Syama Prasad Mookerjee and Pandit Deendayal Upadhyay. SPMRF strives to strengthen and to uphold issues and positions in tune with India's national interest and identify the multifarious challenges before the nation and its people. It aims to do all this through analysing, examining and studying, not only the present context of the challenges, but also their historical and civilizational backdrop through research, publications, advocacy, debates, discussions and round-tables. This will support in highlighting issues that are crucial in the national interest. The foundation has created a pool of intellectual nationalist who can express their views and expertise on the foundation's platform for national resurgence, cultural rejuvenation, integration and self-reliance.

SPMRF provides a platform for experts, practitioners, academics and other opinion makers to come together and exchange ideas, evolve positions
